M. artedesign è tutto un altro mondo. Ci sono persone, come noi, che si alzano alla mattina con il desiderio di cambiare il mondo. Non dalle sue fondamenta, ovviamente, ma attraverso le piccole cose. Per questo pensiamo e realizziamo sedie, tavoli e complementi d'arredo, per te. Desideriamo che tutti i nostri prodotti siano comodi, funzionali e belli. Facciamo la cosa che sappiamo fare meglio: comunicare attraverso gli oggetti quel senso di esclusiva unicità che ispira tutte le nostre produzioni. In ogni singolo prodotto M. artedesign c'è sempre un concetto, un dettaglio che non potrai attraversare immune dalla riflessione; quel qualcosa che ti ispira e ti rimanda altrove. Ogni linea è desiderata, corteggiata e tracciata per appagare il gusto del dettaglio, avendo, sempre, ben presente la connaturale funzione del prodotto. I nostri prodotti sono pensati per migliorare la percezione del tuo ufficio, la tua casa, il tuo ristorante, bar o hotel. Sono pensati per esprimere quel qualcosa in più che manca nelle cose ma che esiste negli oggetti. Tutti gli oggetti sono fonte di rappresentazione delle nostre esigenze e necessità, per questo il buon Design deve essere il risultato fluido dell'incontro dell'oggetto, della volontà creativa e della funzione. Voler creare è immaginare, desiderare il cambiamento, condividere un'idea, un percorso. Per questo creiamo prodotti in grado di emozionare, durare e non impattare su ciò che abbiamo di più prezioso, il diritto ad un ambiente sano. Il team di M. artedesign sa fare bene il suo lavoro e lo fa con tanta passione e dedizione che lo confonde con la vita, per questo i nostri prodotti sono ricchi di significato e assomigliano più al manufatto che al prodotto industriale; vorrei dire che hanno un'anima. Forse è proprio questo il nostro segreto: mettere l'emozione nelle piccole cose, nei dettagli e nella cura che voi avete il diritto di trovare nel prodotto che desiderate e con il quale vi sentite in sintonia con la bellezza e la leggerezza.

M. artedesign is a whole new world. There are people, like us at M. artedesign, who get up in the morning and dream of changing the world, not from its foundations, of course, but through the little things. That is why we design and produce chairs, tables, and furnishing accessories for you. Our aim is to realize creations that are comfortable, functional and beautiful. We concentrate on what we do best: communicating that sense of exclusive uniqueness through objects, that is the inspiration behind all our products. Each and every M. artedesign product is born from a concept, a detail that you cannot encounter and be unaffected by reflection; that particularity that inspires and transports you elsewhere. Each line is intended, courted and drawn in order to satisfy the attention to detail, all the while bearing in mind the product's innate functionality. Our products are designed to improve the perception of your office, home, restaurant, bar or hotel, expressing that something extra which is somehow missing in things, but that exists in objects. All objects are a source representing our needs and requirements, hence good design should embody the point where the object, the creative will, and function meet. The will to create is to imagine, the desire for change, the sharing of an idea, a creative path. It is for this reason that we create products that excite, and last while having a minimal impact on that which is most precious, the right to a healthy environment. The M. artedesign team knows how to do its job well and does it with such passion and dedication that it is often confused with life itself, thus our products are rich in meaning and look more like artifacts than industrial products, in short: they have soul. Maybe that's our secret: to put emotion into the little things, the details and the care, to which you have the right to find in the product of your desires, attuning you with beauty and lightness.

Alfa

Alfa è il risultato di un incontro volutamente fortuito, poiché nulla nasce per caso. Alfa è una scommessa nata da uno scambio di idee e, soprattutto, di ideali. Alfa è il risultato dell'unione che fa la forza e della passione, che ne determina la giusta direzione. Nella genesi di Alfa c'è un po' di noi, un po' di voi. Un po' di tutti quelli che scommettono sulla linea e non sul segmento, sul gruppo e non sul singolo, sul futuro e non sul passato. Veniamo tutti da porti diversi ma, ogni giorno, quando tramonta il sole e i sogni si vestono di vero, prendiamo la stessa nave, poichè è l'unica nave che porta altrove. Alfa segna l'inizio di un viaggio collettivo. Quando vivi troppo a lungo in un luogo o in te stesso, non osservi più nulla e svischi ogni colore e sfumatura, disintegrando ogni stupore. Noi viaggiamo per meravigliarci ancora. Per stupirci che persone con uni possano ottenere risultati non comuni quando in un gruppo batte lo stesso cuore.

Alfa is the result of a deliberate chance meeting, because nothing is born of coincidence. Alfa is a gamble rooted in an exchange of ideas and, above all, of ideals. Alfa is the result of strength in a union and passion determining direction. The birth of Alfa encompasses a little bit of us, a little bit of you, and a little bit of who take a chance on the line and not the item, the group and not on the individual, on the future and not the past. We may all come from different ports but, when the sun sets and dreams are dressed in truth, we board the same ship, because it is the only ship that leads elsewhere. Alfa marks the beginning of a collective journey. Living in a place or within oneself for too long, one loses the ability to observe and no longer sees the value of color and nuance, in this way impairing wonder. We travel in order to be astonished, to be amazed that ordinary people can achieve the extraordinary when their hearts beat as one.

D

La serie Terre fragili nasce dalla sovrapposizione di elementi contrastanti, assemblati a collage. Ritagli di tela dipinta in forma aniconica e processuale sono infatti collocati su un fondo di tela vergine, come se fossero delle inutili montagne di colore che si sciolgono nel nulla. Rappresentano per me le tracce di un'orografia informe, l'ammassare frenetico delle esperienze e, insieme, dei semplici banali accumuli di ego, condannati a svanire nel tempo. Sono frammenti inerti di terra, di roccia e di acqua che sprofondano nei vuoti abissi del presente.

The series Terre fragili originates from the overlapping of contrasting elements, assembled as a collage. Scraps of canvas painted in aniconic and procedural form are placed on a blank canvas background, as if they were useless mountains of colour melting into nothingness. For me, they represent the traces of a shapeless orography, the frantic accumulation of experiences and, at the same time, simple banal accumulations of ego, condemned to vanish in time. They are fragments of earth, rock and water that sink into the empty abysses of the present

Paro

Paro, la nuova collezione di sedute disegnata da Enzo Berti, è concepita fin dal principio come scommessa progettuale basata sull’essenzialità di pochi elementi costruttivi studiati per ottenere la massima semplificazione dal punto di vista produttivo e di assemblaggio. Il risultato estetico ne è la conseguenza. Tre sono, infatti, gli elementi che compongono Paro, assemblati attraverso due sole saldature: l’intreccio di due tubolari metallici, uno a sostegno strutturale e l’altro che diventa bracciolo e appoggio per il terzo elemento: la sinuosa scocca lignea curvata. Ne risulta una struttura che si contraddistingue per l’estrema leggerezza, un disegno pulito e sottile per una seduta che propone un confortevole e iconico schienale a T. Paro è pensata per le aree pubbliche, ma anche per la casa e l’ufficio, ed è facilmente impilabile grazie alla leggerezza e agli ingombri ridotti. È proposta in tre diverse finiture per un effetto finale sapientemente personalizzabile: la scocca è infatti disponibile interamente in legno, imbottita su schienale e seduta oppure interamente imbottita. Le imbottiture sono disponibili a scelta tra pelle e tessuto.

The new chair collection designed by Enzo Berti, Paro, is conceived from the start as a design bet based on the essentiality of a few constructive elements designed to accomplish maximum simplification from the point of view of production and assembly. The aesthetic result is the consequence. In fact, there are three elements that make up Paro, jointed through just two welding’s: the intertwining of two metal tubulars, one as structural support and the other that becomes an armrest and support for the third element: the sinuous curved wooden shell. The result is a structure that stands out for its extreme lightness, a clean and slim design for a chair that offers a comfortable and iconic T-shaped back. Paro is designed for public areas, but also for the home and office, and is easily stackable thanks to its light weight and reduced overall dimensions. Available in three different finishes for a cleverly customizable final effect: the shell is completely available in wood, padded on the back and the sitting or entirely padded in the front. Paddings are available in leather and fabric.

Design: Enzo Berti
Category: Armchairs

"42" Stool

Lineare, essenziale, elegantemente funzionale. La ricerca della semplicità non si esaurisce nel prodotto, diventa uno stile di vita, un itinerario, una scelta. Con le sue linee equilibrate "42" crea un dialogo tra passato e futuro, stabilendo nel presente il suo luogo perfetto. La marcata monomaterialità delle versioni naked è un tributo al design sostenibile e responsabile. Less is more.

Linear, essential, elegantly functional. The search for simplicity is not wasted on the product, but it becomes a lifestyle, a journey, a choice. With its balanced lines "42" creates a dialogue between past and future, perfectly establishing itself in the present. The marked single materiality of the naked versions is a tribute to sustainable and responsible design. Less is more.

Dimensioni / Dimensions

Dilmun

L'istinto è innato, non è frutto dell'apprendimento. L'istinto per sua natura è arcaico, precede, semplifica, riassume, è significato puro. Questa poltroncina ha una genesi istintuale. Le linee che ne derivano sono semplici e, poiché senza filtri, immediatamente comprensibili. Il disegno di Dilmun fa da scrigno a forme indelebili, senza tempo, che contribuiscono a farci assaporare la misteriosa bellezza cinetica presente nel manufatto.

Instinct is innate, it cannot be learned. By nature instinct is archaic, it precedes, simplifies, summarizes, it is pure meaning. This armchair has an instinctual genesis. The lines from which they derive are simple, and being unfiltered, immediate. Dilmun's design is a wealth of indelible forms, timeless, that help us savor the mysterious kinetic beauty present in the product.

Dilmun
Poltroncina con base girevole 4 razze "Office", con alzata a gas, in alluminio lucidato, scocca in poliuretano rivestita in tessuto. / Armchair 4 star swivel base "Office", with gas lift, in polished aluminium, polyurethane shell upholstered in fabric.

e scocca poliuretanica rivestita in pelle.

Dilmun Easy, armchair with 4 star “Office” base in powder coated aluminium and polyurethane shell upholstered in leather.

PG Slis presenta così "Terre Fragili":
"La serie Terre fragili nasce dalla sovrapposizione di elementi contrastanti, assemblati a collage. Ritagli di tela dipinta in forma aniconica e processuale sono infatti collocati su un fondo di tela vergine, come se fossero delle inutili montagne di colore che si sciolgono nel nulla. Rappresentano per me le tracce di un'orografia informe, l'ammassare frenetico delle esperienze e, insieme, dei semplici banali accumuli di ego, condannati a svanire nel tempo. Sono frammenti inerti di terra, di roccia e di acqua che sprofondano nei vuoti abissi del presente."

PG Slis presents "Terre Fragili":
"The series Terre fragili originates from the overlapping of contrasting elements, assembled as a collage. Scraps of canvas painted in aniconic and procedural form are placed on a blank canvas background, as if they were useless mountains of colour melting into nothingness. For me, they represent the traces of a shapeless orography, the frantic accumulation of experiences and, at the same time, simple banal accumulations of ego, condemned to vanish in time. They are fragments of earth, rock and water that sink into the empty abysses of the present."

Dilmun Wire

Versione interamente in tondino metallico della poltroncina Dilmun. Le linee che ne derivano sono semplici e immediatamente comprensibili. Il disegno di Dilmun fa da scrigno a forme indelebili, senza tempo, che contribuiscono a farci assaporare l'estetica del manufatto. In questa versione marcatamente essenziale ed asciutta si arriva ancora più vicini al sapore vintage del prodotto e alla sua vocazione eclettica.

Dilmun armchair's entirely in metal rod version. The resulting lines are simple and immediately understandable. Dilmun's design is here a casket for indelible and timeless shapes, which help us savor the aesthetics of the artifact. In this markedly essential version, we get even closer to the vintage design of the product and its eclectic vocation.

Dilmun Wire
Poltroncina in tondino di acciaio verniciato a polveri + cuscini in tessuto tecnico.
/ Armchair in powder coated rod steel + cushions in technical fabric.

Twelve

Elegante, versatile, avvolgente. Una poltroncina dalla personalità contemporanea, delineata nelle sue forme più iconiche. Questa seduta esprime nella sua completezza il concetto di dinamismo minimale, svelando forme chiare ed essenziali come conseguenza della sostanza insita nell’oggetto stesso. Perfetta soluzione per qualsiasi situazione vogliate impreziosire, dal soggiorno alla sala riunioni, dal ristorante all’hotel, mantenendo sempre elevata la percezione dell’ambiente nella sua globalità.

Elegant, versatile, enchanting. A chair with a contemporary personality, outlined in the most iconic forms. In its entirety, this armchair expresses the concept of minimal dynamism, revealing clear and essential forms as a result of the substance inherent in the object itself. The perfect solution for any space requiring embellishment, from one’s living room to one’s boardroom, or restaurant to hotel, all the while highlighting the perception of the environment as a whole.

Enki

Enki ha un aspetto essenziale ed avvolgente al tempo stesso. Dialoga con i sensi per una esperienza tattile e visiva molto stimolante. Non si lascia solo guardare ma, vuole essere osservata, capita, correttamente definita. Poche e semplici linee per delineare il concetto di originalità come ritorno alle origini, all'archetipo, al bello in sé.

Enki's look is essential yet fascinating. Communicating with the senses, it creates a highly stimulating tactile and visual experience. Not only does it allow one to look, but it wants to be seen, understood, and properly defined. A few simple lines outlining the concept of originality as a return to origins, to the archetype, to beauty itself.

Nami

Nami, in giapponese, solitamente significa “onda” ma, a seconda del modo in cui è scritto, può significare anche “bellezza”. Molteplici significati nello stesso nome. Onda e bellezza: il dinamismo dell’onda si traduce in bellezza cinetica. Un’essenza duale, caratterizzata da linee apparentemente spigolose e da volumi semplici e puliti. Chi non ammira un’onda infrangersi sulla riva ha smesso di stupirsi.

Nami, in Japanese, usually means 'wave' but, depending on the way it is written, it can also mean 'beauty'. Multiple meanings in the same name. Wave and beauty: the dynamism of the wave translates into kinetic beauty. A dual essence, characterised by apparently angular lines and simple, clean volumes. Whoever does not admire a wave breaking on the shore has ceased to be amazed.

Nami

Poltroncina con base a slitta cantilever in acciaio verniciato a polveri, scocca rivestita in tessuto.
/ Armchair with cantilever base in powder coated steel, shell upholstered in fabric.

Bolina

Tre curve descrivono il perimetro di questa poltroncina in filo metallico. Duplice vocazione: l'indoor e l'outdoor. Cugina della collezione di sedute Levante, ne eredita proporzioni e profilo. La campitura di tondini tra le tre curve di struttura ha un caratteristico andamento diagonale che connota la seduta esteticamente e la rende ergonomica. Con gli appositi cuscini, che si adagiano sulle superfici dei tondini, si aumenta il comfort e si trasforma in una perfetta seduta anche per gli interni più preziosi.

Three curves describe this wire armchair's perimeter. Dual vocation: indoor and outdoor. Levante collection's family member, Bolina inherits proportions and profile. The diagonal pattern of the rods between the three curves of the structure aesthetically characterizes the seat and makes it ergonomic. The appropriate cushions increase the comfort and transform Bolina into a perfect seat even for the most precious interiors.

Levante

La forma come inevitabile conseguenza del metodo costruttivo: una famiglia di sedute in polipropilene, anche imbottite, in cui si è posta massima l’attenzione alla circolarità del processo di produzione, manutenzione e smaltimento. Nasce così una seduta caratterizzata da un dominate taglio diagonale che ne connota, in modo unico, l’estetica contraddistinta da un’inedita armonia di superfici avvolgenti e spigoli netti. Un segno riconoscibile che dona più carattere a ciò che viene riconosciuto universalmente come normalità.

The shape as an inevitable consequence of the construction: a polypropylene seating collection, including upholstered ones, in which maximum attention has been paid to the circularity of the production, maintenance, and disposal process. The result is a seat characterized by a prominent diagonal cut in an unprecedented harmony of enveloping surfaces and sharp edges. A distinctive sign that gives more character to what is universally recognized as normality.

Seile

Un soffio di eleganza gonfia la vela che con prua affilata è pronta a puntare in ogni direzione. Lo schienale in tranciato di frassino, a vista, risulta avvolgente e teso al tempo stesso. La comoda imbottitura dello schienale sembra una vela gonfiata dal vento e la seduta, dalla forma simile ad una punta stondata, rende Seile un omaggio presente alle concezioni stilistiche della nautica degli anni 50.

A breath of elegance inflates the sail which is ready to point in any direction. The visible Ash veneer backrest is enveloping as well as taut. The comfortable padding of the backrest looks like a sail swollen by the wind. Thanks to its shape similar to a rounded tip, Seile aims to pay homage to the 50s' nautical design concepts.

Shodo

Di ispirazione formale giapponese, Shodo è un pouf che asseconda il nuovo modo di vivere gli spazi lavorativi, rendendoli accoglienti e rilassanti grazie alle sue forme morbide ed al sottile schienale poggia reni in legno, progettato per definire un appoggio ergonomico ed essenziale.

Japanese-inspired, Shodo is a pouf that follows the new way of living the working spaces. Shodo makes these spaces welcoming and relaxing with its soft shapes and the thin wooden backrest, designed to define ergonomic and essential support.

Radar

Linee morbide ma decise, forme semplici e razionali: una seduta sensoriale. Questa particolare poltrona rappresenta un luogo di confine in cui riposare anima e corpo. Uno spazio per captare nuove frequenze, nuovi battiti, e profonde emozioni. Con questa sedia abbiamo voluto fuggire dalla banalità senza incorrere in inutili esercizi di stile.

Soft but decisive lines and simple, rational forms: a sensory chair. This particular armchair represents a frontier space in which one finds rest for both body and soul. A place that captures new frequencies, beats, and profound emotions. This chair's beauty lies in its ability to escape banality without falling into unnecessary exercises in style.

Radar
Poltrona con seduta in rete metallica e base girevole in acciaio verniciato a polveri. Cuscino in gomma morbida rivestito in tessuto. / Armchair with metal mesh seat and swivel base in powder coated steel. Soft rubber cushion upholstered in fabric.

Clover

Amore e fortuna: un connubio perfetto. Questo pouf stilizza due simboli, singolarmente rappresenta un cuore e combinato rappresenta un quadrifoglio beneaugurale. Una metafora con cui giocare, a cui affezionarsi, su cui sedersi a pensare. Linee semplicissime, quasi grafiche, delineano concetti complessi e desideri. Quanto è bello il design quando è rappresentativo, allusivo, trasparente, unico.

Love and fortune: a perfect combination. This stylized pouf embodies two symbols, singularly it represents a heart while put together, a lucky four leaf clover. A metaphor to play with, be charmed by, upon which to sit and think. Simple, almost graphic lines outline complex concepts and desires. The representative, allusive, transparent, and unique beauty of design.

Clover
Pouf in tondino di acciaio verniciato a polveri, con cuscino.

Qbot

Sembra squadrato, eppure non lo è. Dall’anima morbida e confortevole è al contempo un divano e tanti divani. Offre tantissime soluzioni modulari per l’area lounge, ognuna con un tocco unico: il bordo a contrasto per essere sempre fuori dal coro.

It looks square, yet it is not. With a soft and comfortable soul, QBOT is at the same time one and many sofas. It offers many modular solutions for the lounge area, each with a unique touch—the contrasting piping is always out of the choir.

Qbot
Divano modulare, rivestimento in tessuto e bordini a contrasto + Vessel, tavolino.
/ Modular sofa, upholstery in fabric and contrast piping + Vessel table.

Sostenuto

La cosa fondamentale nella musica è il tempo, così come lo è nella vita. Nella musica Sostenuto richiama un tempo lento, rilassato, cordialmente gioviale. Sostenuto, quindi, non è solo un tavolo ma un augurio a passare il tempo in una piacevole e rilassante convivialità.

Time is the main thing in music, just as it is in life. Sostenuto in music suggests a slow time, relaxed, cordially jovial. Therefore, Sostenuto is not only a table, but a wish to spend time in a pleasant and relaxed conviviality.

Lamp

Semplicemente una lampada che ha cambiato ruolo e prospettive ed è diventata un tavolo. In modo ironico ciò che, per sua natura, è sospeso ed è sostenuto si trova ad essere fisso e a sostenere. Non sempre le cose appaiono per ciò che sono e solo l'ironia ha le lenti adatte a disvelare le contraddizioni, apparenti o palesi. Un invito a guardare le cose e il mondo in maniera sempre diversa e secondo una molteplicità di prospettive metamorfiche.

It's simply a lamp that has changed its role and perspectives becoming a table. Ironically, what is usually suspended in the air is fixed to support something else. Things are not always as they seem and the irony only is able to reveal these contradictions. Lamp is an invitation to look at things in an always different way considering their multiple perspectives.

Vessel

Il vaso è solitamente un contenitore, una forma, una decorazione. Ma la sua apparente formalità nasconde sempre una funzione. Contiene, valorizza, evidenzia. Questo è il concetto di Vessel, un tavolo che sostiene sostanza e idee al tempo stesso, che valorizza spazi e conversazioni. Caratterizzato da forme semplici e lineari, è disponibile in diverse altezze per differenti esigenze di appoggio.

The vase is usually a container, a shape, a decoration. But its apparent formality always hides a function. It contains, enhances, and highlights something. This is the concept of Vessel, a table that supports both substance and ideas, which enhances spaces and conversations. Characterized by simple and linear shapes, it is available in different heights for different support needs.

Tamashii

La forma è la conseguenza della sostanza insita nelle cose. Questo tavolo rappresenta il frutto di questa concezione e vuole comunicare la propria anima, con garbo e forza insieme. In questo progetto, lo scopo era spezzare lo schema mentale con cui si percepisce un tavolo e dare dignità al tavolo in sé. Non vi devono essere separazioni tra piano e gambe, non devono essere percepiti come due elementi diversi e distanti, concettualmente e formalmente. Vogliamo spostare l'attenzione sul prodotto nella sua interezza, sulla sua anima. Il modo per ottenere questo risultato è stato immergere la matericità del piano orizzontale nella sostanza dei supporti verticali. Il taglio verticale della gamba del tavolo lascia percepire l'anima e l'essenza materica del top utilizzato per favorire una comprensione unitaria ed univoca del tavolo. Questa combinazione di concetto e sostanza regala un sapore unico a te che sai apprezzare le sfumature, i colori dell'anima.

Its shape is the result of the substance inherent in things. Tamashii represents the fruit of this conception, communicating its soul with both grace and strength. The aim of this project was to shatter the mindset with which one looks at atable and give dignity to the table itself. One should not differentiate between the table top and its legs, perceiving them as two distant, different elements, both formally and conceptually. One should shift the focus to the product in its entirety, to its soul. This was achieved by immersing the substance of the horizontal plane in the materiality of its vertical supports. The vertical cut of the table leg leads one to perceive the soul and essence of the top, in terms of material, favouring a unified and unambiguous understanding of the table. This combination of concept and substance offers a unique flavor to those able to appreciate the subtleties of nuance and the colors of the soul.

A Tamashii, tavolo con gambe in acciaio verniciato a polveri e piano in legno naturale + Alfa 4 razze alluminio girevole “Office”, scocca in polipropilene.

Hikari

Leggero, sospeso, parentesi tra la funzionalità e l'estetica. Il tavolo allungabile Hikari vuole stimolare un dialogo complesso con lo spazio, sospendendolo, distraendolo dall'ovvio mentre le forme corteggiano il vuoto. Il piano del tavolo brama la sospensione rispetto alla sua struttura, non per respingerla, piuttosto per evidenziarne la sua distinta unicità e dignità. Due tessere di un solo tutto, curato nei particolari per gli amanti dei dettagli. Una scelta di stile e di eleganza contestuale, per dimenticare la pesantezza delle cose e ricordare la leggerezza dei desideri. Un'oggetto di design non è semplicemente un oggetto ma il messaggio dentro cui trovare le parole pensate, un atto di libertà di forma e sostanza insieme.

Lightweight, suspended between functionality and aesthetics. The Hikari extendable table sparks a complex dialogue with space, suspending it and distracting from the obvious with its shape courting the void. In terms of structure, the table top calls out for suspension, not in order to reject it, but rather to highlight its distinctive uniqueness and dignity. Two pieces of a single whole, with attention to detail for lovers of particularity. A contextual choice of style and elegance that leaves behind the weight of objects and returns to the lightness of desires. An object of design is not just an object, but a message in which to find the words one thinks, a singular act of freedom of form and substance.

Art Acoustic Panels

Pensiamo e progettiamo elementi per il benessere acustico delle persone che abitano gli spazi e vivono le situazioni più disparate. Questi elementi sono in grado di cambiare, positivamente, la percezione del suono all'interno dei contesti maggiormente frequentati. I risultati a cui miriamo sono la riduzione del riverbero nell'ambiente, l'attenuazione del rumore e la maggior chiarezza del parlato. Il tutto si traduce, molto semplicemente, in maggiore serenità e benessere della persona. I sensi che utilizziamo per percepire la realtà vengono meno sollecitati e, quindi, aumentano le energie dell'individuo dedicate alla percezione della realtà interiore, dell'equilibrio e del proprio benessere. La gestione del suono nello spazio viene trattata in modo serio e certificato, in un'ottica di oggettiva misurabilità del beneficio. Ma non è tutto qui. Per m. artedesign la sola funzione tecnica del prodotto non assolve integralmente la funzione estetica e l'appagamento visivo. Per tale scopo, il connotato artistico, il respiro dell'anima, è sempre presente e riscontrabile in ogni soluzione acustica da noi proposta.

We conceive and design elements for the acoustic well-being of people who inhabit spaces and experience a wide variety of contexts. These elements are able to positively change the perception of sound within the most frequented spaces. The results we are aiming for are the reverberation reduction in the environment, the noise attenuation and the increased speech clarity. All this means a greater serenity and well-being for the individual. In this way, we stress less the senses used to perceive the external reality and have more energy to feel our balance and well-being. The management of sound in space follows professional and certified guidelines, in order to objectively measure the benefit. But that is not all. For m. artedesign, the only technical function of the product does not entirely fulfil the aesthetic function and visual gratification. For this reason, the artistic connotation, the breath of the soul, is always present and noticeable in every acoustic solution we offer.

Vegg

Un suono semplice, norvegese, per definire la parete. In questo caso la parete non viene intesa come elemento verticale strutturale negli edifici ma come elemento funzionale e decorativo al tempo stesso. Pannelli acustici termoformati dalle forme geometriche, concave e convesse. Le forme progettuali di Vegg definiscono superfici verticali molteplici e dinamiche. Arricchiscono lo spazio con il colore e lo privano del rumore.

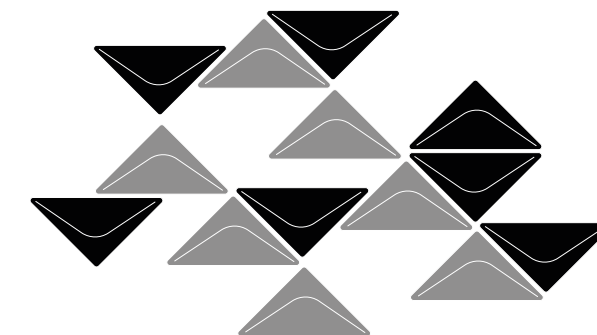

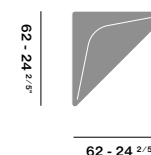

A simple Norwegian sound to define the wall. In this case, the wall is not intended as a vertical structural element but as a functional and decorative element. Thermoformed acoustic panels with geometric, concave, and convex shapes. The Vegg's design creates multiple and dynamic vertical surfaces. They enrich the space with colors and deprive it of noise.

Dati Tecnici / Technical Data

Sistema di pannelli acustici realizzato in fibra di poliestere al 100% riciclata e riciclabile. È possibile stampare i pannelli con grafiche personalizzate, ad alta risoluzione, anche su tessuti riciclati e derivanti dal recupero di bottiglie in PET. I pannelli sono predisposti con sistema di fissaggio a parete oppure con sospensione orizzontale o verticale a soffitto. Il fissaggio a soffitto avviene mediante specifici morsetti regolabili. Sono, inoltre, disponibili soluzioni freestanding fisse o movimentabili su ruote. Particolarmente consigliato per assorbire frequenze dai 500 ai 2000 Hz. / Acoustic panel system made of 100% recycled and recyclable polyester fibre. It is possible to print customised and high-resolution graphics on the panels, even on recycled fabrics derived from recovered PET bottles. The panels are prepared with a wall-fixing system or with horizontal or vertical suspension from the ceiling. Ceiling mounting is by means of specific adjustable clamps. Fixed freestanding solutions or moved-on-wheels panels are also available. Especially recommended for absorbing frequencies from 500 to 2000 Hz.

Quando osserviamo lo spazio che ci circonda utilizziamo la vista come organo di senso primario. La vista è la nostra finestra sul mondo e un bene prezioso. L'udito è altrettanto essenziale ed entrambi contribuiscono a strutturare le nostre percezioni e le nostre esperienze. Abbiamo pensato a quadri acustici in grado di appagare l'occhio e l'orecchio. Le possibilità di personalizzazione, sia cromatiche che dimensionali, sono elevate, così come notevoli sono le performances acustiche del prodotto.

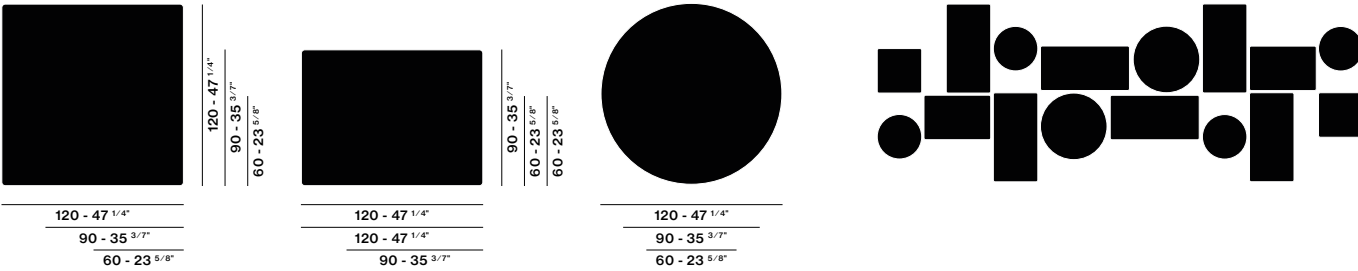

When we look at the space around us, we use our eyes as first way to know it. The sight is our window to the world. However, the hearing is fundamental as well and they both contribute to define our experiences and perceptions. We designed acoustic panels able to satisfy both sight and hearing. There are multiple chromatic and dimensional customize options as well as the acoustic performance of the product.

Dati Tecnici / Technical Data

Pannello modulare fonoassorbente in fibra di poliestere al 100%. La forma triangolare del prodotto amplifica le possibilità di personalizzarne la disposizione sulle superfici. È possibile, infatti, scegliere tra le molteplici configurazioni proposte o idearne di inedite e personalizzate. I pannelli sono predisposti con sistema di fissaggio a parete, a contatto o distanziati, o con sospensione orizzontale a soffitto con morsetti regolabili in acciaio. Particolarmente consigliato per assorbire frequenze tra 750 e 4000 Hz. / Sound-absorbing modular panel in 100% polyester fibre. The triangular shape of the product increases the possibilities of customising its arrangement on surfaces. It is possible, in fact, to choose from the many proposed configurations or to design new and customised ones. The panels are available with a wall mounting system, either contact or spaced, or with horizontal ceiling suspension with adjustable steel clamps. Especially recommended for absorbing frequencies between 750 and 4000 Hz.

Gyo

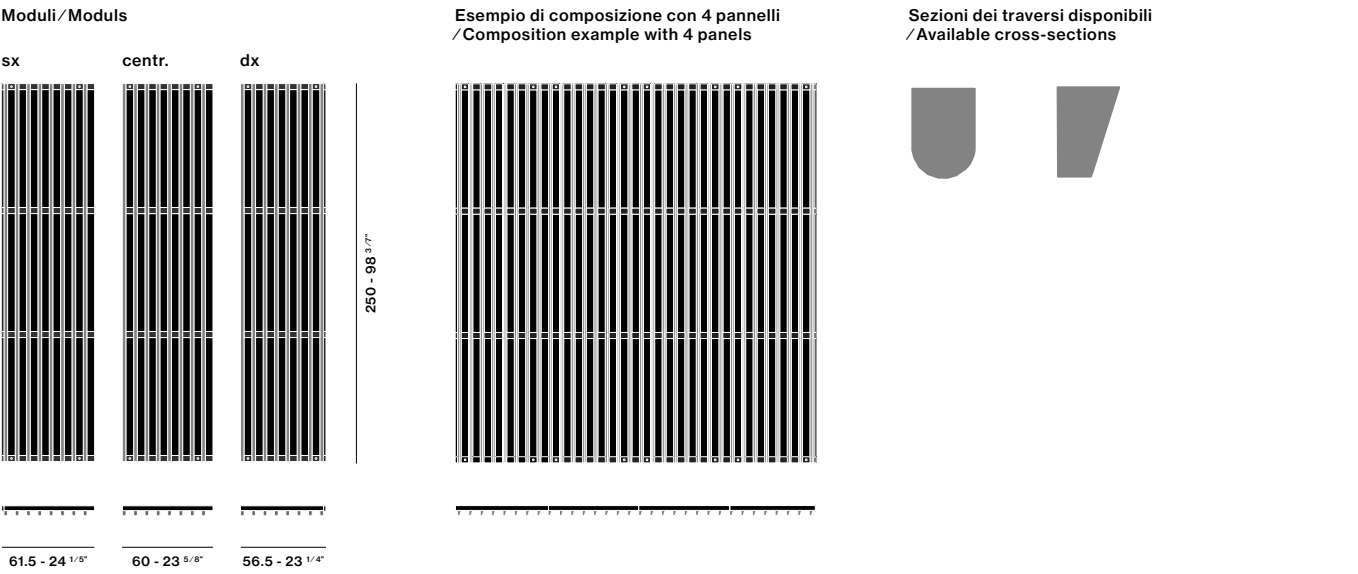

Gyo

Un sistema di pareti acustiche che traggono lo spunto grafico da esempi di architettura domestica giapponese degli anni '50, in cui strutture verticali di bambu e legno vengono giuntate in sapienti incastri. Un linguaggio semplice che rievoca protezione e silenzio, concentrazione e ritualità. La sistemazione a parete di Gyo consente di ottenere contesti di arredo pacati e raffinati incui il silenzio ha sempre l'ultima parola.

An acoustic panels collection that derives from Japanese domestic architecture in the 50s, since vertical bamboo and wood panels were put together. It's a simple language that evokes protection, silence, focus, and rituality. The Gyo wall arrangement allows to create a quiet environment where silence reigns.

Dati Tecnici / Technical Data

Sistema modulare di pannelli fonoassorbenti composti da aste di legno di tiglio e fibra di poliestere FR 100% riciclabile. La struttura è posizionabile in diversi ambienti, mediante fissaggio rapido a parete. Disponibile in massello di tiglio con 3 finiture e 2 tipologie di profilo. Con la fibra poliestere, in massa bianca, si presta ad essere personalizzata con decorazioni a scelta o predeterminate. Particolarmente consigliato per assorbire frequenze tra 500 e 2000 Hz. / Modular system of sound-absorbing panels made of lime wood rods and 100% recyclable FR polyester fibre. The panel can be positioned in different rooms by means of quick wall mounting. Available in solid lime wood with 3 finishes and 2 profile types. With polyester fibre, in white mass, it can be customised with decorations on request. Especially recommended for absorbing frequencies from 500 to 2000 Hz.

Legno Naturale	Polipropilene	Alluminio Lucido e Acciaio Cromato	Incisione Pirografica "Second Skin"
Abbiamo selezionato il legno di Frassino, un legno che cresce nelle pianure e nei boschi di media montagna di tutta Europa. Proviene da un albero di grandezza media-grossa, alto 25-30 metri, con fusto avente un diametro da 60 a 100 cm. Facciamo lavorare solamente Frassino proveniente dai paesi europei e derivante da una buona gestione forestale. Una selezione cosciente ed attenta della materia prima da utilizzare permette di rispettare l'ambiente e le risorse naturali.	Il polipropilene viene rinforzato con fibra di vetro per conferire alla scocca proprietà fisiche e meccaniche elevate. Altrettanto elevate risultano anche la solidità alla luce e alla temperatura. Tutto il materiale tecnopolimerico viene prodotto e trasformato in Italia secondo le più stringenti normative del settore. Le operazioni di stampaggio vengono affidate ad una azienda leader del settore, selezionata per la particolare vocazione allo stampaggio plastico e per l'attenzione riposta nel controllo delle emissioni in atmosfera, degli scarichi idrici, dell'inquinamento acustico e della corretta gestione dei rifiuti. Per questo il nostro prodotto è completamente riciclabile e sostenibile.	L'alluminio viene idoneamente lucidato meccanicamente per ottenere un effetto lucido e solido allo stesso tempo. La sensazione visiva è estremamente elegante e si caratterizza per un appeal lucido/opaco che rappresenta perfettamente la vocazione nobile dell'alluminio pressofuso per una surface design color tendente al grigio. Il trattamento galvanico di cromatura dell'acciaio avviene attraverso l'elettrodeposizione di nichel lucido e un successivo flash di cromo. Si ottiene tipicamente un effetto metallico brillante e specchiato con surface design color tendente al bianco/azzurro. Questo trattamento conferisce al pezzo elevata durezza superficiale e inossidabilità. Tutte le operazioni vengono affidate ad imprese italiane che utilizzano tecnologie aggiornate di lavorazione e si distinguono per i rigorosi protocolli ambientalistici.	Per amanti dell'unicità e della customizzazione. Attraverso la tecnica della incisione pirografica possiamo arrivare ad altissimi livelli di personalizzazione di alcuni nostri prodotti. Allo stato attuale, tale metodologia, risulta applicabile ai prodotti identificati con la versione "Second Skin" i cui materiali sono stati pensati e idoneamente preparati per l'incisione. Il risultato estetico, sia su legno che su plastica, rende sensazionale ed unico il manufatto: come il suo committente.
Natural Wood	Polypropylene	Polished Aluminum and Chrome Steel	Pirographic Engraving "Second Skin"
We have selected the Ash wood, a wood that grows in the plains and mid-mountain forests of the whole of Europe. It comes from a medium-large tree, 25-30 meters tall, with a stem having a diameter from 60 to 100 cm. We only use Ash wood from European countries and deriving from good forest management. A conscious and careful selection of the raw material to be used makes it possible to respect the environment and natural resources.	The Polypropylene is reinforced with glass fiber to give the shell important physical and mechanical properties and resistance. Equally high are also the reaction to light and temperature. All the technopolymer material is produced and processed in Italy according to the most stringent industry regulations. The molding operations are entrusted to a leading company in the sector, selected for the particular vocation to plastic molding and for the attention placed in the control of emissions into the atmosphere, water discharges, noise pollution and proper waste management. This is why our product is completely recyclable and sustainable.	The aluminum is mechanically polished to obtain a shiny and solid effect at the same time. The visual sensation is extremely elegant and is characterized by a glossy/opaque appeal that perfectly represents the noble vocation of die-cast aluminum for a gray-colored surface design. The galvanizing treatment of the steel is carried out through the electrodeposition of polished nickel and a subsequent flash of chrome. Typically, a bright and mirrored metallic effect is obtained with a white/light blue colored surface design. This treatment gives the piece a significant surface hardness and rust resistance. All operations are entrusted to Italian companies that use up-to-date processing technologies and are distinguished by rigorous environmental protocols.	For those who love uniqueness and customization. Through the technique of pyrography, we can reach very high levels of customization of some of our products. At present, this methodology is applicable to products identified with the "Second Skin" version, which materials have been designed and prepared to be engraved. The aesthetic result, both on wood and on plastic, makes the artifact sensational and unique: like its client.
Legno Precomposto	Verniciatura a Polveri		
È un materiale naturale, certificato ed eco-sostenibile. Per ottenere la lamina di precomposto viene utilizzato legno di Pioppo, Tiglio o Ayous scomposto e ricomposto. Si tratta di un prodotto dalle caratteristiche qualitative superiori, senza i difetti tipici del legno tradizionale, caratterizzato da colori e sfumature costanti e riproducibili nel tempo. Performance ed ecosostenibilità.	La verniciatura dei nostri prodotti è affidata ad una azienda italiana certificata e leader del settore. L'azienda è all'avanguardia per i processi di verniciatura e per i materiali di primordine utilizzati. Tutti i processi della lavorazione si svolgono in una filiera performante e rispettosa dell'ambiente; il risultato tangibile è l'estrema qualità della lavorazione del pezzo e conseguentemente di tutto il prodotto finito.		
Precomposed Wood	Powder Coating		
It is a natural, certified and eco-sustainable material. To obtain the precomposed laminate, decomposed and recomposed Poplar, Linden or Ayous wood is used. It is a product with superior quality characteristics, without the typical defects of traditional wood, characterized by constant colors and nuances that can be reproduced over time. Performance and eco-sustainability.	The painting of our products is entrusted to a certified Italian company and industry leader. The company is at the forefront of the painting processes and for the primary materials used. All processing procedures take place in a high performant and environment-friendly structure; The tangible result is the extreme quality of the single element and consequently of the whole finished product.
