— Ogni prodotto è il riflesso di un'esigenza non solo pratica ma anche intima e personale. A noi piace chiamarla: ergonomia dell'anima —

— Each product reflects a need, not only practical but also intimate and personal. We like to call it: soul ergonomics —

m. arte design è un laboratorio di idee, un'officina di concetti. Dal 2012 il nostro team progetta e realizza complementi d'arredo dai dettagli unici. I nostri prodotti disegnati in Italia, sono presenti oggi in oltre 60 paesi. La nostra filosofia — Il design è la nostra passione: una parola che tutti usano ma della quale pochi osano dare una definizione precisa. Per noi è la creazione di un'utilità al tempo stesso tangibile e intangibile. Ogni forma deve avere un contenuto pratico, estetico ed etico. Questo è il nostro modo di essere, prima ancora che di lavorare. Il nostro obiettivo è far sì che le persone ottengano soddisfazione dagli oggetti e dagli spazi che abitano e che allo stesso tempo ne vengano permeati nei gesti e nelle abitudini. Ricerca e materiali — Non ci sono limiti alle fonti da cui scaturiscono le nostre ispirazioni. Ogni ricerca è valida, anche quando appare improbabile, poiché ovunque può nascondersi il dettaglio che cambia il tutto. Amiamo ricercare materiali nuovi e utilizzarli secondo schemi tradizionali oppure utilizzare materiali ben noti piegandoli a lavorazioni inedite e assegnando loro nuovi modi di esistere e di comunicare. Il nostro focus è sempre la sostenibilità.

m. arte design is a "laboratory of ideas," a workshop of concepts. From 2012, our team designs and manufactures furniture with unique details. Our collections, designed in Italy, are sold in over 60 countries. Our philosophy — Design is our passion. "Design," a word that everyone uses but which few dare to give a precise definition. For us, "design" is the creation of an object that is both tangible and intangible. Each shape must be functional, aesthetic, and ethical meaning. This is what we are, and drives us to work with passion. Our goal is to ensure that people get satisfaction from the objects and spaces they occupy and that at the same time, they are permeated by their gestures and habits. Research & development — We have limitless sources of inspiration. Any feeling is valid, even when it seems unlikely, since the inspirational key can be hidden anywhere. We love to search for new materials and use them according to traditional schemes. Or to use well-known materials by bending them to processes that were never used before and appoint them to new ways of existing and connecting. Our primary focus is always on sustainability.

— Chaque produit est le reflet d'un besoin non seulement pratique mais aussi intime et personnel. Nous aimons l'appeler: l'ergonomie de l'âme —

— Cada producto es reflejo de una exigencia no sólo práctica sino también íntima y personal. A nosotros nos gusta llamarla: ergonomia del alma —

m. arte design est un laboratoire d'idées, un atelier de concepts. Depuis 2012, notre équipe conçoit et fabrique des accessoires d'aménagement avec des détails uniques. Nos produits conçus en Italie sont aujourd'hui présents dans plus de 60 pays. Notre philosophie — Le design est notre passion: un mot que tout le monde utilise mais dont peu osent donner une définition précise. Pour nous, c'est la création d'une utilité à la fois tangible et immatérielle. Chaque forme doit avoir un contenu pratique, esthétique et éthique. C'est notre valeur première, inscrite dans notre être, avant même celle d'être des travailleurs. Notre objectif est de faire en sorte que les gens soient satisfaits des objets et des espaces qu'ils habitent et qu'en même temps ils soient imprégnés de leurs gestes et habitudes. Recherche et matériaux — Il n'y a pas de limites aux sources d'où jaillissent nos inspirations. Chaque recherche est valide, même quand elle semble peu probable, car le détail qui change tout peut être caché n'importe où. Nous aimons rechercher de nouveaux matériaux et les utiliser selon des schémas traditionnels ou utiliser des matériaux bien connus en les soumettant à des processus inédits et en leur attribuant de nouvelles façons d'exister et de communiquer. Notre objectif est toujours le développement durable.
